

Transforming Patient Experience

**SMART AND SIMPLE
MEDICAL DEVICES PLATFORM
FOR PRECISE INJECTION**

How to inject easily and safely viscous liquids and thick gels?

New practices bring new challenges in a competitive market. Injection of viscous and gel-like products are often associated with problems for MDs and filler providers willing to better serve patients.

Time consuming

for the patient and healthcare professional

Imprecise

inaccurate dosage, thumb tiring

Multiple forms

highly viscous products, gels, cements or pastes through thin needles...

Not safe

bio contamination, needle stick injuries

Complex

heterogeneous mixing, dosing errors, user dependent

Loss of product

resilient injection, need to minimize product loss

Examples of therapeutic areas

Ophthalmology

Dermatology

Aesthetic

Orthopedics

Dentistry

Rheumatology

Intuity® Gel is our smart custom-made medical device for easy and safe injection.

Intuity® Gel is the first assisted and wireless custom-made injector that allows easy and precise injection of very viscous liquids and thick gels through thin needles, keeping manual sensitivity for the user thanks to force sensors integrated.

How it would work?

Value proposition

- Faster time-to-market
- Capture new practices
- Competitive advantage
- Ensure practitioner loyalty

- Personalized treatment
- Smooth injection
- Safe treatment
- Reduced dosing errors

- Effortless and Gain of time
- Personalized strategies
- Save product
- Enhanced results
