

*Transforming Patient Experience*

# SMART AND SIMPLE MEDICAL e-DEVICES PLATFORM FOR PREPARATION

# How to prepare new drugs simply, automatically and safely?

New drugs (lyo, viscous products, suspensions, radiopharmaceuticals, emulsions, cells...) are challenging both for patients and healthcare professionals.

Preparation can be complex due to number of ingredients and steps for the patient and the health professionals.

*(Illustration of a complex drug's preparation ~10 steps)*

**Time consuming**  
for the patient and  
healthcare professional

**Imprecise**  
not accurate dosage

**Complex**  
heterogeneous mixing,  
dosing errors, user dependent

**Not safe**  
contamination, sharps injury

**Loss of product**  
resilient injection

Our custom-made solutions offer a **convenient and easy-to-use solution** for homecare and professional care.

# Intuity® Mix is our custom-made solution for a concurrent administration.

- Reusable device:
- Disposable cassette adapted to all standard primary containers – 1 cassette = 1 treatment  
Adapted to multi vials for SC or IM injection
- Connected & smart e-device  
Data tracking, data sharing via GSM, drug recognition

## How it would work?

## Value proposition

- Personalized treatment
- Full dosage control
- Traceability

- Personalized treatment
- Time saving
- Easy-to-use
- Minimum handling

- Simple to use and reduced errors
- Time saving
- Fully automatic
- Safe : No contact with potentially toxic products
- Less product loss

- Faster time-to-market
- Development tool
- Competitive advantage
- Simple logistics
