Loss of product
need to minimize product loss

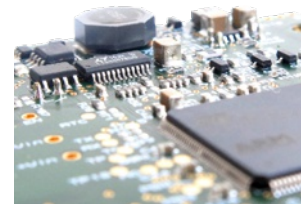

Our solution

Connect your medical device, with various solutions, according to your needs in order to improve patient treatment.

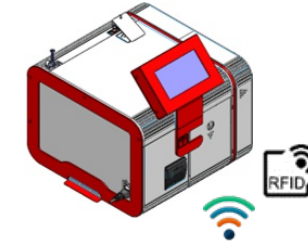

Connectable solutions to improve compliance

Our competencies

Electronics
conception, miniaturization and mechanical integration

Software & embedded software¹
with human-machine interface easy-to-use to fix dosage and fluidic process

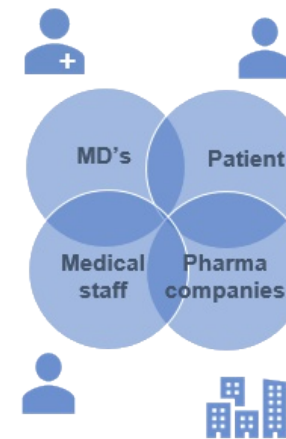

iOS & Android applicatioⁿ
data tracking & sharing, drug recognition, user identification, alarm and calendar

Value proposition

- Personalized treatment
- Full dosage control
- Traceability

- Simple to use and reduced errors
- Time saving
- Automatic or assisted actuator
- Less product loss

- Time saving
- Easy-to-use for autonomy
- Reduced dosing errors
- Safety

- Faster time-to-market
- Devices platform
- Development tool
- Competitive advantage
